## Friends of The Moncton Hospital Foundation Announces New President & CEO

MONCTON, September 9, 2020 – Chair of the Board of the Friends of The Moncton Hospital Foundation announced today that Greg King has been appointed as the new President & Chief Executive Officer.

Pat Armour says King, who starts in mid-September, was the successful candidate after a national executive search over several months supported by KBRs -Knightsbridge Robertson Surette.

“Greg King has strong leadership experience in the public, private and non-profit sectors and we are delighted to welcome him to take on the leadership of the Friends Foundation,” remarks Armour.

King has his Master of Business Administration (MBA) and is a Chartered Professional Accountant (CPA). His last post was with Atlantic Lottery as Vice President of Finance and Corporate Services. King gained fundraising experience in previous roles serving as Vice President and Chief Operating Officer with the Centre for Addiction and Mental Health Foundation in Toronto, as well as the Chief Financial Officer with the QEII Health Sciences Centre Foundation in Halifax.

“I am honoured to be continuing the great work of Linda Saunders and her team. Now more than ever, the hospital is vital to our community and needs our collective support. I am very much looking forward to collaborating with our donors, staff, Board and other volunteers to improve the care of patients and their families,” says Greg King.

King has deep roots in Atlantic Canada. He has spent most of his life in Halifax and has been living in Moncton for eight years with his wife Carolyn and their three children.

The CEO search is part of a succession process initiated by the planned retirement of the founding President & CEO of the Friends of The Moncton Hospital Foundation, Linda Saunders, after 31 years of outstanding leadership.

-30-

The Friends of The Moncton Hospital has been the philanthropic arm of The Moncton Hospital since 1965. We work to inspire giving to fund new technologies, innovation, renovated spaces and placing the right tools in the hands of our medical staff to strengthen patient care.
